Dibyendu Dey awarded an SPIE Scholarship in Optics and Photonics

BELLINGHAM, Washington, USA – June 10, 2011 – Dibyendu Dey has been awarded a 2011 Scholarship by SPIE, the International Society for Optics and Photonics for his potential contributions to the field of optics, photonics or related field.

Mr. Dey is a PhD candidate at the Department of Electrical Engineering and Computer Science at Northwestern University, Evanston, Illinois. He is currently working on developing a mid-infrared bio-sensor, under the supervision of Prof. Hooman Mohseni (SPIE Fellow). This kind of sensor is expected to be very sensitive but compact in size. He is going to use part of the scholarship in developing that prototype.

SPIE awarded \$350,000 in scholarships to 137 outstanding individuals, based on their potential contribution to optics and photonics, or a related discipline. Award-winning applicants were evaluated, selected and approved by the SPIE Scholarship Committee, Chaired by SPIE volunteer Marta de la Fuente.

To date, SPIE has distributed over \$3.3 million dollars in individual scholarships. This ambitious effort reflects the Society's commitment to education and to the next generation of optical scientists and engineers around the world.

SPIE scholarships are open to full- and part-time students studying anywhere in the world. All scholarship applications are judged on their own merit based on the experience and education level of the individual student.

SPIE, the international society for optics and photonics, was founded in 1955 to advance light-based technologies. Serving more than 180,000 constituents from 168 countries, the Society advances emerging technologies through interdisciplinary information exchange, continuing education, publications, patent precedent and career and professional growth. SPIE annually organizes and sponsors approximately 25 major technical forums, exhibitions and education programs in North America, Europe, Asia and the South Pacific, and supports scholarships, grants and other education programs around the world.
